### COVID-19 Oregon Highlights

- The Oregon Health Authority released its [COVID-19 Weekly Report](#). For the week of Monday, February 8 through Sunday, February 14, OHA recorded a 15% decrease from the previous week's daily new cases count.

## COVID-19 Situation in Region 7

[\(Click here for source: Oregon Health Authority Situation in Oregon\)](#)

The graph below shows the number of COVID-19 cases from Crook, Deschutes, Grant, Harney, Jefferson, Klamath, Lake, and Wheeler County each calendar week beginning the week of 3/1/20-3/7/20 (when the first cases were identified in Region 7).

Data for this week is not yet shown. This graph will be updated **weekly** to show the number of COVID-19 cases identified each week in Region 7.

This graph shows data based on the date a case first became identified as a case, which is the date Oregon Health Authority (OHA) uses for school metrics, public health indicator metrics, and other tracking purposes. This date differs from the date OHA reports a case publicly in news releases.

## COVID-19 Vaccination Trends

We know it will take some time before every Oregonian who wants to get the vaccine can get their two shots, Oregon Health Authority will follow a phased approach.

Oregon began vaccinating frontline health care workers, first responders, residents and staff of residents of long-term care facilities and other groups on Dec. 12. People who work in a childcare, early learning or K-12 school setting became eligible for vaccinations on Jan. 25. People who are age 80 and older will be eligible for vaccination beginning on Feb. 8, people who are age 75 and older will be eligible Feb. 1, people who are age 70 and older will be eligible Feb. 22, and people age 65 and older will be eligible March 1.

| County    | Series in Progress | Fully Vaccinated | Total People | Total per 10,000 |
|-----------|--------------------|------------------|--------------|------------------|
| Crook     | 1,836              | 821              | 2,660        | 1,134.8          |

## Oregon's COVID-19 Risk Levels

This map shows the indicator OHA is tracking to monitor COVID-19 risk in Oregon counties. As counties begin to open back up, we want to be sure the risk of COVID-19 in Oregon remains low enough to keep Oregonians safe. For more information, visit the [OHA Public Health Indicators dashboard](#). This dashboard is updated weekly.

## COVID-19 School Metrics Data

Oregon public health officials have developed metrics to help school boards and school districts make decisions about how they can safely reopen schools. School reopening decisions are based on these metrics.

More details about the use of public health metrics in school reopening can be found on the [ODE's Ready Schools, Safe Learners information page](#).

## Region 7 Public Health Response

Crook, Deschutes, Grant, Harney, Jefferson, Klamath, Lake, and Wheeler County Public Health Departments regularly manage communicable disease outbreaks, and we are prepared to investigate and respond. When a case of COVID-19 is identified in our community, Public Health Nurses work on [contact tracing](#) to identify and notify individuals who might have been exposed.

We began preparing for local impacts of COVID-19 and regularly meeting with healthcare partners, Oregon Health Authority, and CDC in January 2020.

We continue to work closely with local schools, healthcare providers, emergency services, cities, businesses, and others to coordinate efforts and to share the most up-to-date information.
